

2025 Subject Index

Adverse events	1	Core needle biopsy	74
Aesthetic plastic and reconstructive	190	Cutaneous lesion	389
Age.....	115, 132	DEGs.....	63
Aggressive breast cancer	345	Dermatofibrosarcoma protuberans	389
AI.....	93	Diabetic women	173
Air-assisted mastectomy.....	384	Diagnosis	215
Anxiety.....	223	Disease-free survival	101
Apparent diffusion coefficient	141	Doxycycline.....	80
Aromatherapy	223	Drug repurposing.....	63
Artificial intelligence	33, 90, 93	Early detection	40
Axillary lymph nodes.....	141	Echo-mammography.....	182
Axillary lymphadenopathy.....	74	Elastography.....	33
Basal-like.....	345	Elderly.....	285
Bayesian model.....	255	Elevated breast cancer risk screening.....	90
Biology.....	132	Endometrial carcinoma	74
Biomarkers	101	EORTC QLQ-BR45	162
Biopsy	387	EORTC QLQ-C30.....	162
Body image perception	326	Epithelial-mesenchymal transition.....	101
BRCA mutation	384	Extrapulmonary tuberculosis	274
<i>BRCA1</i> and <i>BRCA2</i> genes	295	Fine needle aspiration cytology.....	237
Breast	211, 387, 389	Genetic predisposition.....	367
Breast biopsy	223	Giant cell tumor.....	387
Breast cancer	9, 16, 33, 40, 46, 52, 63, 93, 115, 132, 162, 182, 215, 237, 255, 223, 285, 290, 301, 307, 326, 333, 339, 367, 379, 384	Gynaecological cancers.....	63
Breast cancer related to lymphedema	122	HALP score.....	215
Breast cancer screening	295	Health-related quality of life.....	162
Breast cancer screenings.....	173	Hemochromatosis	367
Breast cancer subtypes	246, 277, 307	HER2 protein	154
Breast cancer surgery	122	High mobility group box-1	290
Breast carcinoma	356	Histopathology.....	182
Breast conservative surgery	265	HMGB1 protein	290
Breast conserving surgery	295	Hormonal influence	375
Breast disease.....	85, 274	Hormone receptors	154
Breast lesion	375	Hormone therapy.....	115
Breast neoplasm	154	Hub genes	63
Breast neoplasms	1	Hydatid cyst.....	182
Breast Quadrant lesions.....	265	Immunohistochemistry	277, 307, 387
Breast reconstruction.....	190	Implant	190
Breast skin.....	9	Incidence rate.....	122
Breast surgery.....	80	Inframammary fold.....	190
Breast surgery training.....	200	Innovation in breast cancer.....	90
Breast ultrasound.....	33	Intraoperative evaluation	333
Breast volume.....	230	Invasive breast cancer	141
Carbonic anhydrase IX.....	57	Iron overload.....	367
Case report.....	379	Isosulfan.....	1
Complete decongestive therapy	122	Keloid-like	389
Computed tomography	230	Ki-67 proliferation index.....	57
Conformable ultrasound	90	Left ventricular assist device.....	379
		Leiomyosarcoma	277

2025 Subject Index

Level of awareness	52	Psychosocial impact.....	326
Lipids.....	339	PTEN	246
Local transdermal therapy	9	Pyoderma gangrenosum	80
Luminal A.....	246	Quality of life.....	115, 122
Luminal androgen receptor	101	Radiation	285
Lymphedema.....	40, 274, 301	Radiotherapy.....	301, 379
Lymphovascular invasion.....	141	Randomized controlled study.....	137
Machine learning	255, 356	Rare tumors	277
Magnetic resonance imaging	230	RB1 deletion	211
Male breast cancer	154	RECQL4/FAM13C	63
Mammogram	74	Reduction mammoplasty.....	80
Mammography.....	230	Review	16, 190
Mastalgia.....	137	Risk factors.....	40
Mastectomy.....	154, 277, 326, 384	Risk of malignancy	237
Mastitis	274	ROPN1.....	345
Meta-analysis.....	367	Screening methods	52
Minimally invasive surgical procedures.....	384	Self-detection	52
Molecular subtypes.....	246	Sentinel lymph node mapping.....	1
MRI	46, 141	Sentinel lymph nodes	333
Multidisciplinary approach.....	200	Serum vitamin D levels	137
Myofibroblastoma	211	Soft tissue tumors.....	387
Nanoformulation	9	Spindle cell tumor	211
Neoadjuvant chemotherapy.....	46, 307, 333	Stage	132
Oncoplastic.....	265	Standardization	200
Organized breast cancer screening.....	173	STARD3	339
p53.....	246	Surgery.....	85, 182, 190
Pacemaker	384	Surgical management	375
Pain management.....	223	Survival	255
Pakistan.....	326	Survival analysis	154
Pandemic	132	Survivors	115
PARP inhibitors; sequencing.....	295	Symptom relief.....	137
Pathological response.....	46	Systematic review	1
Pathology	93	Tacrolimus	80
Patient satisfaction.....	326	Texture analysis	356
Perforator fasciocutaneous	265	Therapeutic strategies.....	101
PET/CT.....	46, 356	Three-Dimensional surface imaging.....	230
Plasmocytoma	85	Tissue expression	290
Postgraduate thesis	16	Topical treatment	9
Pre-tests.....	52	Treatment effect	57
Prediction models.....	255	Triple negative breast cancer.....	101, 345
Predictor symptoms.....	115	Triple negative breast carcinoma.....	57
Presentation	132	Triple-negative.....	285
Primary breast cancer	74	Tuberculosis	85, 274
Prognosis.....	307	Tumor-infiltrating lymphocytes.....	101
Progression-free survival	356	Type 2 diabetes.....	173
PROM	162	Visual analog scale.....	137
Prospective study.....	137	Vitamin D deficiency	137
Prostate cancer	339	Vitamin D supplementation.....	137
Pseudoangiomatous stromal hyperplasia	375	Wide excision.....	182
Psychology	16	Yokohama system	237
